

AV over IP

Blustream delivers the industry's most comprehensive range of award-winning AV over IP solutions, providing scalable, flexible, and high-performance video distribution. Designed for residential and commercial applications, our solutions ensure seamless integration, exceptional quality, and advanced control for any project.

SDVoE™ - 4k 60Hz 4:4:4 over 10Gb network

IP510UHD-TZ

4K 60Hz 4:4:4 SDVoE Transceiver via 10Gb Managed Network. Ideal for uncompromised video distribution, the product can be configured as a video matrix, multi-viewer, or video wall system.

4K 60Hz 4:2:0 over 1Gb network

IP200UHD-TX/RX

Industry leading 4K HDMI distribution, using visually lossless compression technology, delivering HDMI, Bi-directional IR, RS-232 & USB/KVM up to lengths of 100m over standard 1Gb network architecture.

IP250UHD-TX/RX

4K HDMI distribution, using visually lossless compression technology, delivers HDMI, Bi-directional IR, RS-232 & USB/KVM up to lengths of 100m over standard 1Gb network architecture. Includes dedicated RJ45 output for simplified Dante integration.

1080p HD video over 100Mbps network

IP50HD TX/RX

The IP50HD platform is an industry leading 1080p solution, utilising H.265 compression technology to deliver HDMI, Bi-directional IR, RS-232 & USB for KVM up to lengths of 100m over standard 100Mbps network architecture.

4K 60Hz 4:4:4 over 1Gb network

Dante AV-A™
COMING SOON

IP300UHD-TX/RX

4K 18Gbps HDMI, Dante audio, bi-directional IR, RS-232 & USB/KVM up to lengths of 100m over standard 1Gb network architecture, or greater distances using the in-built fibre SFP network interface.

IP350UHD-TX/RX

4K 18Gbps HDMI, Dante audio, bi-directional IR, RS-232 & USB/KVM up to lengths of 100m over standard 1Gb network architecture, or greater distances using the in-built fibre SFP network interface. Includes dedicated RJ45 output for simplified Dante integration.

Wallplate solutions

NEW

IP300UHD-WP-TX

Switchable USB-C or HDMI video over IP wall plate transmitter. Audio embedding, PoE powered and USB-C host power pass-through

Advanced Control Modules

ACM210

Advanced Control Module for IP50, IP200 and IP300 Series.

ACM500

Advanced Control Module for IP510 Series Transceiver
